

XS5

ELLIPTICAL

The XS5 features converging and diverging arms for a biomechanically correct workout, while serving up convenient features like fingertip controls that allow changes to settings without losing focus on your workout.

- Converging and diverging arms provide an ergonomically correct motion for the upper body
- Convenient fingertip resistance controls allow for quick adjustments without losing focus on your workout
- Polar® wireless HR compatible. Use a Polar heart rate chest strap to readout your HR on the display console or interact with built-in HR control programming
- Natural 20" stride length ensures a comfortable, low impact workout
- Bright LED Matrix windows display statistics including Speed, Distance, Time, Calories, Pulse and more
- Performance PCS Soft Step pedals for enduring comfort
